8th September  
2013

**UNDER FULL STEAM !**

Big  
Model railway festival t  
in  
Hamburg Museum

**H A M B U R G  
U S E U M**

## SPECIAL HIGHLIGHTS

- \* Demonstrations of numerous modular systems based on interesting models from different epochs of the great railway with different scales and gauges in the covered inner courtyard of the museum.
- \* Models of the unforgettable Hamburg tramway
- \* The large gauge 1 layout - let the train drive yourself!
- \* Not only for model fans and detail lovers:  
Guided tours behind the scenes
- \* Special trains all the time
- \* A model railway workshop for children - self-build on Sunday from 11-17 o'clock in the Remise
- \* A play and manoeuvring playground for the youngest visitors
- \* Film screenings with the Friends of the Railway (FdE)
- \* Sale of railway articles and literature

The model railway layout of the association "Modelleisenbahn Hamburg e.V." (MEHEV) at Holstenwall has been a magnet for visitors to Hamburg since 1949 and is a unique attraction at a scale of 1:32. With an area of 250 square metres and a track length of 1200 metres, it is Hamburg's largest layout on a scale of 1:32. Everyday rail life between Hamburg's main railway station and Harburg is depicted very closely - with passenger, freight and marshalling yards, port operations and railway depot. As with the large model, up to 70 different locomotives, railcars and small locomotives with around 400 wagons can be admired.

### ORT

Hamburg Museum  
Stiftung Historische Museen  
Hamburg  
Holstenwall 24  
D - 20355 Hamburg
